

Autumn Holiday Programme

BIG BEN KIDS WASSENAAR AND SCHEVENINGEN

The Guardians of the Four Elements

During the autumn holiday, the children will take part in an engaging and educational programme inspired by the four elements: fire, earth, wind, and water. We will read chapters every day from the book titled The Avatar.

Monday 19 October | FIRE

Morning: We will welcome a special visit from the fire brigade and learn about fire safety and emergency services through an interactive, age-appropriate experience.

Afternoon: We will bake and decorate cookies with colours and designs inspired by fire.

Tuesday 20 October | EARTH

Morning: We will take part in a forest adventure, connecting with nature, observing seasonal changes, and collecting colourful leaves.

Afternoon: We will create seed bombs using wildflower seeds, compost, and powdered clay and make clay sculptures focusing on different textures and structures

Wednesday 21 October | WIND

Morning: We will visit a windmill and explore how wind can be harnessed as a natural source of energy.

Afternoon: We will take part in a wind-themed STEM workshop, using playful experiments to encourage curiosity, problem-solving, and scientific thinking.

Thursday 22 October | WATER

Morning: We will enjoy an active outing to a nature playground with a water area, supporting movement, teamwork, sensory exploration, and outdoor play.

Afternoon: We will engage in an ice excavation activity, carefully using tools to release objects frozen inside ice blocks while learning about remarkable discoveries preserved in ice.

Friday 23 October | THE FOUR ELEMENTS

Morning: We will visit Sea Life, where we can discover the beautiful life of underwater creatures and learn more about marine animals and aquatic environments.

Afternoon: We will conclude the week with a Four Elements dress-up celebration, bringing together our discoveries, creativity, and experiences from the holiday camp.
